PROFESSIONAL SUMMARY

Passionate Full-Stack Developer and Salesforce Administrator with over 2 years of experience building scalable web applications and optimizing CRM workflows. Expertise in React, Next.js, Django, and Python, with a strong background in Salesforce automation. Proven track record of delivering client-focused solutions, including complex calibration systems and hotel management platforms. Committed to clean code, best practices, and continuous learning.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design.
 - **Backend:** Django, Python, RESTful APIs, Authentication & Security.
 - **Database:** SQL, MySQL, PostgreSQL.
 - **Salesforce:** Administration, Apex Programming, CRM Customization, Workflow Automation.
 - **Tools & Methods:** Git/GitHub, Docker (Basics), Agile, SDLC, VS Code.
 - **Other Languages:** Java, C++.
-

WORK EXPERIENCE

Full-Stack Developer | *Isyera Digital, Pune May 2025 – Present*

- Developing a comprehensive client-based calibration system utilizing **React**, **Next.js**, and **Django**.
- Architecting responsive user interfaces and robust backend APIs to manage equipment schedules and certification processes.
- Implementing CI/CD pipelines to streamline deployment and optimizing application performance for high-traffic usage.
- Collaborating with cross-functional teams to translate business requirements into technical solutions.

Frontend Developer Intern | *Vivance AI (Remote) June 2024 – October 2024*

- Designed and built responsive web pages using **HTML**, **CSS**, and **JavaScript**, significantly improving site accessibility.
- Enhanced UI/UX of existing applications, resulting in improved user engagement metrics.

- Collaborated with backend developers to integrate APIs and utilized **Git** for version control and team collaboration.
-

KEY PROJECTS

Calibration System (Client Project) | *React, Next.js, Django*

- Developing a secure system to manage calibration equipment, tracking real-time status and certification schedules. Features include role-based access and automated reporting.

Hotel Management System | *Salesforce, Apex, CRM*

- Engineered a fully integrated Salesforce system to optimize hotel operations. Automated room booking, billing, and customer management workflows using Apex triggers and custom objects.

ATM Simulator Interface | *Java, AWT, MySQL*

- Built a desktop application simulating core banking operations including cash withdrawals, deposits, and fund transfers with a graphical user interface and database connectivity.

Task Manager Web App | *JavaScript, HTML, CSS*

- Created a web-based task management tool featuring role-based access control, task prioritization, and real-time progress tracking.
-

EDUCATION

M.Sc. in Computer Science (Pursuing) *Savitribai Phule Pune University* | 2024 – Present

B.Sc. in Computer Science *Savitribai Phule Pune University (SPM)* | 2024

- CGPA: 7.53

HSC (12th Grade) *PVG College of Science, Pune* | 2021

- Percentage: 80%

CERTIFICATIONS

- **Salesforce Development** (2024) - Apex, Visualforce, Lightning Components.
- **Salesforce Administrator** (2024) - User management, Security, Data management.
- **Full-Stack Web Development** (2024) - React, Django, Database management.
- **Java Programming** (2023) - Core concepts and OOP principles.
